MAJOR INTERESTS IN FORENSIC PSYCHIATRY

1. Psychiatric Effects of Solitary Confinement

Psychiatric expert in large number of cases including several large class action and other multiple plaintiff lawsuits in Federal and State Courts in California, Massachusetts, New York State and in Washington, D.C. Decisions in some of those cases, and my published findings, have been cited in Federal Appellate decisions, and have also generated significant national media interest.

2. Strip Search Procedures, Sexual and Physical Assault

Psychiatric expert in a number of cases in Federal and Massachusetts state courts. Testimony has been cited by the Federal Appeals Court in Cole v Snow.
Psychiatric expert in cases of rape, sexual and physical assault.

3. Addictive Disorders

Testimony in a number of criminal and civil cases. My testimony in a highly publicized case, In re Cockrum, helped to establish that an individual who was otherwise highly competent, was still – by virtue of the effects of addictive illness – incompetent to act in his own behalf in appealing his murder conviction.

4. Childhood Sexual Abuse

Substantial experience in evaluating the effects of childhood sexual abuse, and the processing over time of memories of that abuse. Among other experiences, I have been a psychiatric expert in a number of high profile cases involving sexual abuse by clergy, including the case of *Father James Porter* – a priest accused of sexually abusing more than one hundred children.

5. Civil Rights Issues

Expert in a number of cases regarding racial and sexual harassment in employment and housing situations, including cases brought by Civil Rights Division of the United States Department of Justice, and by Greater Boston Legal Services.
