 Defendant. )

ORDER

In his motion docketed as #762, the pro se defendant requests an immediate connection to the discovery website hosted by the Federal Public Defender. The necessary connectivity lines, hardware and software are in the process of being installed so that Mr. Moussaoui can have access with the limitations indicated in our Order of January 24, 2003.

Although several months have passed since we initially granted Mr. Moussaoui's motions for access to the discovery website, he has received extensive amounts of discovery materials both in hard copy and on compact disk. In light of the indefinite postponement of the trial date, we do not find that the defendant has suffered any undue prejudice from the delay in being connected to the website. Accordingly, the motion is DENIED.

The Clerk is directed to forward copies of this Order to the defendant, pro se; counsel for the United States; standby defense

counsel; and the United States Marshal.

Entered this 25<sup>th</sup> day of February, 2003.
